IDEAS FORMS

VISION PROVIDER OF IDEAS

MISSION

PROFITABILITY

We form ideas. As a finder of ideas, we look forward to each new task. Visions encourage us to continue to develop all of the business units further in the future in order to produce products for our customers that are market-oriented and profitable.

We are developing into a learning organisation with the inclusion of everyone's knowledge.

We are human-oriented and focus on the human being and not on every form of digitalization.

MOULDING

Our success is reflected in the performance with which we realise the requirements of our customers.

The requirement for this is our competence in the fields of development, design, prototyping, mould construction, injection moulding, assembly and logistics.

STANDARD PRODUCTS

We see ourselves as being a partner for our customers. We add to each other's interests face to face for an infinite time if possible.

We currently produce using conventional injection moulding, internal gas pressure, two-component and hybrid techniques.

CABLE MANAGEMENT
PERFECT SOLUTIONS

IDEEN SIND FORMBAR
FORM YOUR IDEAS

Perfect solutions for modern seated and standing workplaces.

The cable duct chains are so elastic that they can be ideally adapted to all of the positions on the desk. This well thought-out system brings innovative tidiness to the office.

SOCIAL PROJECTS

RESPONSIBILITY

PHILOSOPHY

REGIONAL
SOLIDARITY

IDEEN SIND FORMBAR
FORM YOUR IDEAS

THINK GLOBAL, ACT LOCAL.

Social responsibility is an affair of the heart for us as a family-friendly medium-sized employer.

We feel special solidarity with the Lippe region due to our production site being in Blomberg-Donop. It is our aim to continue to support the attractiveness of this area so that people like living and working here. We therefore commit ourselves to various social projects, both financially and personally.

MOMENTS OF HAPPINESS

FRUCHTIES **SOCIAL
RESPONSIBILITY**
CHILD CANCER PROJECT

FRUIT COCKTAIL

We support the “Fruchalarm” fruit alarm child cancer project.

Volunteers – known as “fruchties” - visit child cancer wards throughout Germany with a mobile children’s cocktail bar on a weekly basis. The children mix the tasty and strongly flavoured drinks at their hospital bed according to their own taste.

“Fruchalarm” therefore supports the activity, the self-determination and the zest for life of the seriously ill children and juveniles.
